For questions, call the State Route 210 project helpline: 1-866-HELP-210 or visit www.sanbag.ca.gov

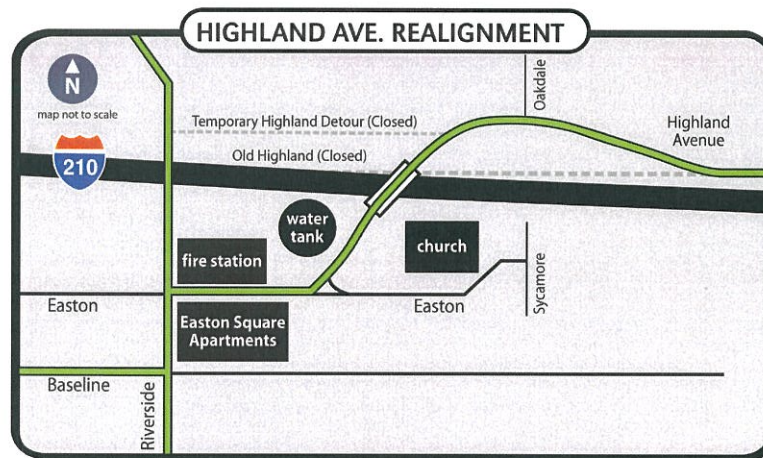

August 29, 2006

Dear Rialto Resident,

Rialto motorists will have a new permanent road to use next month, with the opening of the Highland Avenue bridge over State Route 210 and the realignment of Highland Avenue east of Riverside Avenue.

The bridge opening and street realignment are scheduled to occur the weekend of September 9 and 10. Throughout the weekend, crews will be working during day and evening hours to pave, stripe lanes and install traffic signals. This work will require intermittent lane closures and a full closure of Highland Avenue east of Riverside. During the full closure of Highland, motorists may use Riverside, Baseline and California Street as alternate routes.

The new Highland bridge and street alignment will allow a direct connection between Easton Street and Highland Avenue. The temporary section of Highland Avenue built east of Riverside Avenue (marked "**Temporary Highland Detour – Closed**" on the map below) will be removed to build freeway on-ramps at Riverside.

Drivers should note that the new permanent alignment of Highland Avenue is designed to serve primarily as a local community route, and State Route 210 is intended to be the main commuter route. However, until the freeway opens next year, commuter traffic may be heavy along the new alignment. Motorists are urged to drive carefully in this area, especially near the Rialto Fire Station, Easton Square Apartments and St. Thomas More Church.

For more project information, call the Route 210 toll-free helpline at 1-866-HELP-210 or visit the SANBAG website at www.sanbag.ca.gov. SANBAG and Caltrans appreciate your understanding during construction of this new freeway. Please allow extra travel time, follow all signs and posted detours, and drive carefully through construction zones.

Remember, Safety: It's no accident!

Please call the Route 210 Helpline for any special access needs you might have or anticipate during construction. If any contractors, machinery or work directly impact your business, please let the construction workers know. Thank you for your patience and cooperation!
